

My home is my private space. If I do not invite you in, you do not belong here. By filing my phone number with the NJ Do Not Call list, I am putting telemarketers on notice that they do not belong in my home. And if I shopped with you in the past 18 months, and the service and product were good, I will shop with you again - without the assistance of a phone call. I supply businesses that I frequent with my email, so that any IMPORTANT information can be relayed to me in that fashion. I am mature enough, old enough and intelligent enough to make my own decisions about purchases without being prodded by a telemarketer.

Thank you for listening. Don't lose sight of the rights of the people, over the "rights" of business.
